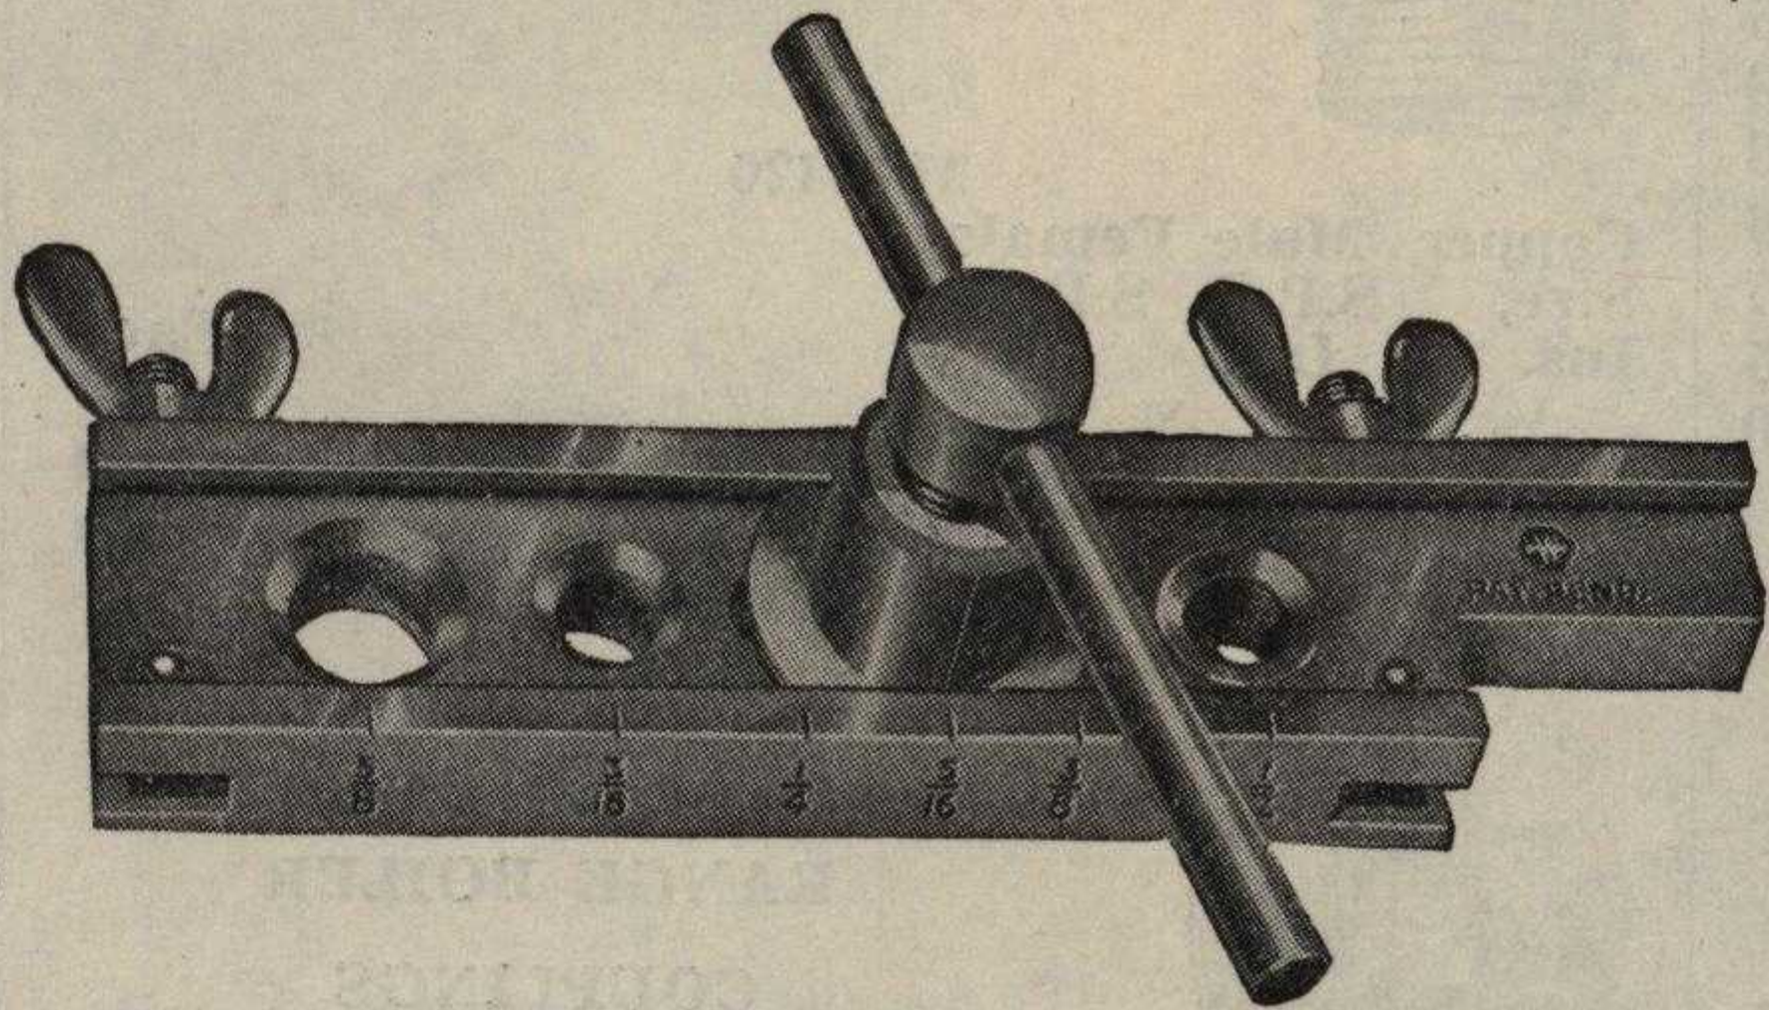
Flaring Tools

WEATHERHEAD



This tool flares copper, brass, aluminum and bundy-weld steel tubing to make S.A.E. flared joints without cracking or splitting.
Yokes are made of steel forgings and are finished with a cone which rotates when the screw is turned. Clearly marked for O.D. tubing sizes 3/16, 1/4, 5/16, 3/8, 1/2, and 5/8 inch.

M-T1022 ..... **Each $6.00**

One in a box.
